Motion Diesel Engine Oil

MOTION DIESEL OIL

High quality diesel engine oil for naturally aspirated and turbo charger engines.

Description

MOTION DIESEL are high quality engine oils designed specifically for use in naturally aspirated and turbo-charged diesel engines.

Application

MOTION DIESEL oils are formulated from high quality paraffinic base oils and detergent-dispersant, anti-oxidation, anti-corrosion, anti-wear and anti-foam additives. They are used extensively in diesel engine driving transports, earth-moving / quarrying and construction equipment as well as stationary diesel engines.

Advantages/Benefits

- Can be used in diesel engines; normally aspirated or turbo-charged.
- Reduces engine wear.
- Extends oil change periods.
- Keeps engine interior clean.

Due to its unique viscometry, MOTION DIESEL can reduce oil consumption in old worn out engines. This leads to lowering of the operating costs of the equipment.

Specifications

- API CF (40, 50)
- API CH-4 (15W40)

Characteristics
